

Internship Assignment – Flutter Developer

Objective

Recreate **two Figma slides** into Flutter with **pixel-perfect precision**. The output must match the given design in terms of **colors, fonts, spacing, and overall style**.

Figma Design Link: <https://www.figma.com/design/5ICSHhpfoX0yD4H2HOcGyY/Untitled?node-id=1-1295>

Tasks

Task 1 – Subscription Screen

- Convert the provided "Subscription" screen into a Flutter UI.
- Ensure exact match with Figma's style (colors, typography, layout).

Task 2 – Mixer Screen

- Convert the provided "Mixer" screen into Flutter.
- UI must be pixel-perfect and responsive.

Task 3 – Mixer-VIP Screen

- Recreate the "Mixer-VIP" Figma design in Flutter.
- Maintain consistent spacing, padding, and responsiveness.

Task 4 – Upgrade Homepage Screen

- Implement the "Upgrade Homepage" design.
 - Ensure correct fonts, button styles, and background matching Figma.
-

Deliverables

1. Flutter Project Code

- Submit complete source code (GitHub repo link or zipped folder).
- Organized folder structure (lib/, assets/, pubspec.yaml).

2. Demo Video

- A short screen recording (2–3 minutes) showing all four screens running in an emulator/device.

3. Documentation (PDF/Word)

- Approach & implementation details.
- Libraries/tools used.

- Screenshots of your output.
 - Challenges faced and solutions.
-

Requirements

- Use Flutter only (no external UI frameworks except officially supported packages).
 - Design must be pixel-perfect compared to Figma.
 - Must be responsive (test on at least two screen sizes).
 - Submission deadline must be respected.
-

Evaluation Criteria

- Pixel perfection: Accuracy in matching the Figma design.
- Code quality: Clean, modular, well-structured code.
- Responsiveness: Works seamlessly across screen sizes.
- Documentation: Clarity and completeness.
- Presentation: Demo video showing smooth UI.
